Lounging and Dining

## DRINK, DINE AND LOUNGE IN COMFORT OF YOUR HOME

Sitting together with family and friends, enjoying good food and drinks, laughing, chatting and swapping stories. On the comfortable seating furniture from **tommy m**, spending time together is always a pleasure. Luxurious materials, clever upholstery and a wide range of models and variations of sizes makes every furniture to an individual eye-catcher!

# OLD CRAFTSMANSHIP MEETS MODERN KNOW-HOW

Leather is a beautiful natural material. The leathers we choose are very exclusive and most of them are developed specially in close cooperation with us personally. In order to create just as beautiful and special furniture with individual accents, much knowledge of the material and expert processing is important.

We manufacture at our home base in Germany Upper Franconia (Oberfranken) with our well trained specialists. They perform each step by hand with much love and experience. This begins with the design of the furniture and prototypes, extends over the quality assurance, the cutting of high-quality leather, the sewing, the upholstery to the final acceptance and shipping.

Quality is our top priority! Therefore, the leather skins are checked after receipt for quality characteristics such as size and thickness of the skin, color deviation and much more. Since our leathers are so unique in color and appearance, automated processing is not possible. Each skin is selected individually, the leather parts are laid by hand and cut to size. This results in the most beautiful picture on the piece of furniture. You can call it "Art" by Nature.
